

Hard Cider Bundled Cans: Semi-Automatic Shrink Sleeve Bundler

B34-MP

DAMARK
Shrinkwrap & Bundling Systems

Customer Challenge

Puddicombe, a manufacturer of cider, expanding its market, needed to bundle their new canned products according to specific Canadian liquor board regulations. If their package did not meet exact specifications, the liquor board would deny their product. Requirements included specific guidelines for quality of shrink wrap seals, placement, bundle tightness, seams, and package appearance.

About the Customer

Puddicombe is a growing Ontario-based cider company expanding its product line to large liquor boards across Canada.

Solution

Plexpack provided a B34-MP Damark “bulls eye” bundler, SZ-34-16-EX Shrink Tunnel and conveyor. The B34-MP creates consistent, strong sleeve wrapped bundles of supported or unsupported products at speeds up to 14 a minute. No change parts are required for product changes. Wrapping is activated by either two palm buttons or product pusher.

Results

Puddicombe’s product was approved throughout Canada’s provincial Liquor Boards. They received attractive, fast and durable shrink packaging that provided safe transport and appealing shelf presence. Labor costs were reduced, while improving the quality and consistency of product packaging. The customer was pleased with the package quality ease of use, and quick return on investment.

Damark Shrinkwrap & Bundling systems deliver certain results and packaging performance you can count on:

Wrapping and Seal Integrity. Precise wrapping, sealing and heat application for consistent strong, visually appealing packages with fewer rejects.

Superior Performance in wide range of applications, including single products, multipacks, boxes, trays, supported and unsupported items, or difficult to wrap products.

Flexible, Reliable, Innovative solutions that reduce costs and produce pleasing packages. Many machines have been delivering results 24/7 for decades.

Easy Operation. Intuitive design with conveniently placed controls and easy access components for quick changeovers and maintenance.

Plexpack Corp. delivers flexible packaging machinery solutions and certain results for customers worldwide. Our Emplex Bag & Pouch Sealing and Damark Shrinkwrap & Bundling Systems are customizable, made-to-order with your unique needs, reputation and budget in mind. Modular and innovative designs are easy to install, maintain, and expand. They provide line and product flexibility, and ensure your packaging operations perform to the highest standards—yours.
