ST/SZ and SZX/DZ/Custom

Overview

Damark Shrink Tunnels consistently produce, high quality, attractive shrink wrapped packages of all sizes, ranging from small to extra wide, long or tall. Damark Shrink Tunnels are available in small footprint, single zone, double zone, and custom models to ensure efficient, cost-effective shrink packaging to fit any production environment and budget.

All Damark Shrink Tunnels include digital control systems to precisely regulate temperature, air velocity, and conveyor speeds. Heavy gauge steel construction and high quality heavy duty blowers and heating elements provide years of reliable service.

Low maintenance Damark Shrink Tunnels are widely used worldwide by manufacturers of food, beverage, personal care, pharmaceutical, nutraceutical, industrial, and household care products for shrink packaging and tamper evident banding.

Shrink Tunnels are sold separately or can be paired with any Damark shrinkwrap and bundling solution. Numerous options and upgrades are available to tailor shrink tunnels to fit your unique product needs.

Features & Benefits

- Digital temperature controller ensures constant tunnel temperature
- Precise air volume and flow adjustment
- Automatic cool down and shut down
- High velocity, heavy duty blowers
- Variable speed conveyor system
- Heavy gauge steel construction
- Tubular steel frame and base
- Lockable casters
- Bottom shrink section to ensure perfect all around shrink wrap

ST Series
Highly efficient small footprint ST Tunnels are ideal solutions for full body shrink sleeves and tamper-evident bands. It has a standard width of 16" (40.64 cm) and height of 9" (22.86 cm) or 12" (30.48 cm)

SZ/SZX Series
Versatile Damark SZ and SZX Single Zone Shrink Tunnels can be used on their own or paired with L Bar Sealers, Tray Wrappers and Bundlers, or Horizontal Shrink Wrappers. Multiple options are available to ensure the most efficient and cost-effective solution for your needs

DZ Series
Damark DZ Double Zone Shrink Tunnels are ideal solutions for high speed shrink wrapping. The DZ Series comes standard in two available widths and three heights and a choice of tunnel conveyor.

Custom
Damark Custom Shrink Tunnels include the same features and outstanding performance of our standard models with added options for increased width, length, tunnel height, and power.

Options

- Polymer mesh belt for small and unstable products
- Live rollers for Polyolefin applications
- Dead rollers for Polyethylene applications
- Stainless steel belting
- Increased tunnel height
- Custom power supply
